

OMERACT12

Budapest, Hungary | Hilton Budapest | May 7 – 11, 2014

SAVE
THE
DATE

Set in the heart of the Royal Castle district, a UNESCO World Heritage site, the Hilton Budapest rests on the Buda side of the city, just 40 minutes from the Ferenc Liszt International Airport. There is much more to the Castle District than just a royal palace or a castle. With countless venues from where the beautiful panorama of Budapest may be admired, visitors get a distinct feeling that they have travelled back in time, to a different, totally tranquil world, where doorways hide historical Roman stones and beautifully carved sediles from the times of knights.

The program will begin on Wednesday, May 7th and continue through Sunday, May 11th with interactive sessions incorporating both patient and clinician/ researcher perspectives. Additional information will be posted on www.omeract.org.

We look forward to seeing you in Budapest in May 2014 for **OMERACT 12!**
